- Digital Display Presentation - Each participant should create a digital display presentation using presentation applications such as PowerPoint, Prezi, Keynote, etc. The digital display presentation should help the participant illustrate his/her 4-H workforce preparation experiences and accomplishments. The display should convey to fair-goers and judges what the participant learned or gained from being in this 4-H project or program and how the experience will benefit the participant in the future. Details related to the digital display presentation include:

When members using technology experience an equipment failure or glitch that cannot be resolved in a reasonable time (a few minutes), the judge may elect to move to the next presentation. The member will be given time to work out the technical problem and then re-schedule the display presentation with the judge's helper. If the member experiences a second failure, the display presentation will be ended and evaluated accordingly.
