Scan Me!

**Saturday
March**

28

6 p.m.–9 p.m.

Event will be at 1100 S.
Detroit Street, Bellefontaine,
Ohio, 43311

**Workshop price is
\$45 per person**

An Apple Grafting Class Hosted in Logan County!
Come learn this time-honored skill!

The Science of Scions!

Come explore the fascinating science behind apple grafting, Where two apple trees can be combined to create healthier plants with delicious fruit. In this workshop, our agricultural extension educator will guide participants through the essentials of apple tree care, including soil management, pollination, reasons for grafting, and effective tree management practices. The session will include a full grafting demonstration. Every student will have the chance to practice the technique themselves and take home their own grafted apple tree. This is a hands-on learning experience with limited seating, so be sure to reserve your spot while space is still available!

Event Coordinator: This event is conducted by Logan County ANR
